SUMMARY OF INFORMATION

Ugly distortions much like the "elephant man", gruesome in nature, are associated with the target personality. Concepts of attack, "long guns" related to an alert in some desert is associated with the event surrounding the target personality.

On the international scene, some countries condone what was done while others find this (content of the event) very distasteful.

Attempts to locate the target country on a wall-sized world map resulted in the pinpointing of an area located in the northwestern part of Jordan. (The actual target was located immediately east of Jordan in Iraq).
